**Reference Number:** SD-DP-2013  
**Start Date:** June 2010  
**Location:** Toronto  
**Report To:** Senior Manager, Do Process

### Overview:

The IS Do Process Team is looking for a backfill Senior Developer to start in June. The role involves full life software development including design, development, implementation and support of Do Process software applications. This also includes participation in the testing process.

### Responsibilities:

- Design module specifications as per the overall system design.
- Conduct module testing
- Develop and maintain application code
- Troubleshooting software problems and identifying and implementing solutions
- Participate in integration and regression testing
- Prepare technical documentation.
- Implement security policies as set out by Teranet

### Qualifications:

- Bachelor's Degree in Computer Science, Engineering, or a related discipline
- At least 5 years of experience in systems development with 2+ years in Internet environment.
- Excellent command on concepts, practices, and procedures of systems development life cycle. Relies on experience and judgment to plan and accomplish goals.

### Interpersonal and Technical Skills

- Must have excellent English verbal and written communication skills.
- Must have good organization, analytical, and decision making skills.
- Must be a good team player with a positive attitude
- Self-starter with the ability to learn quickly, has good problem-solving skills and can meet tight deadlines

### Systems Environment:

Multi-tier client/server and e-commerce solutions, RUP (development methodology), Rational suite of products to manage development life cycle, MS SQL Server, XML, XSLT, CSS, XSD, html, Apache, Weblogic, PHP and JavaScript. Working knowledge of Visual Studio and Web Services is an asset.

### Development Environment and Tools:

ASP.NET, C# .NET, VB .NET, ADO.NET, Visual Studio .NET, SQL, IIS, Infragistics and ClearQuest

**Operations:**

ITIL, COBIT, BMC Software

**Working Conditions:**

- This position will work primarily at a Do Process location or as assigned.
- Occasionally may have to work extra hours as dictated by delivery schedules
- Required to carry a pager for 7/24 on-call support rotations.

**Do Process Software Ltd.**, acquired by **Teranet** in 2008, is the provider of The Conveyancer, the leading automation software for real estate law offices in Canada. *The Conveyancer* is already used in more than 3000 Canadian law firms and is loaded with features that save time and effort producing documents and managing real estate files.
